# TYPES OF FINANCIAL AID

a majority of students receive financial assistance

## The Free Application for Federal Student Aid (FAFSA) can be filed starting October 1 - available at: [www.fafsa.gov](http://www.fafsa.gov). Make sure you complete it before the March 2 priority filing deadline. Based on your FAFSA and other information you submit, the Financial Aid Office will determine your eligibility for a variety of funding options, including scholarships, grants, work-study programs and loans. **AB 540 eligible students who are not U.S. citizens or permanent residents can apply for aid via the Dream Act application.** International students are not eligible for university, state, or federal financial aid. We urge international students to research scholarship opportunities from private organizations both within the US and your home country.

If you are a California resident, the **California Student Aid Commission** provides grants to qualified students. If you are not a California resident, your home state might offer college grants even if you attend an institution in another state. Check the U.S. Department of Education website for a list of state higher education agencies that can direct you to the proper resources.

The **UCLA Scholarship Resource Center** is available to help you identify scholarships for which you are qualified. Other resources including community service organizations in your hometown, faith-based groups and your college career/college counseling center are options to explore. We also encourage you to initiate a search for additional scholarship resources via the internet. Online searches will reveal various websites and databases dedicated to helping you locate the best scholarship opportunities. For information about searching for UCLA scholarships and other outside scholarships, please review our Scholarship Resource Center website at: [www.scholarshipcenter.ucla.edu](http://www.scholarshipcenter.ucla.edu).
