Los Angeles is one of the most vibrant and progressive cities in the world. A living laboratory where the future is happening today — and UCLA is located right in the heart. Surrounded by Bel Air and Beverly Hills, you can explore some of LA's most iconic locations from Rodeo Drive to Sunset Boulevard, Hollywood and Venice Beach.
WELCOME TO YOUR FUTURE

No brochure or webpage can possibly convey the genuine spirit of UCLA. Experiencing the dynamism of the campus firsthand is the only way to truly take it all in.

Explore acres of rolling hills with picturesque vistas, a vibrant residential community and state-of-the-art recreation centers. Enjoy a meal at an award-winning dining hall or a cup of coffee at one of our many outdoor cafes. Talk with students and faculty, and you’ll feel the optimism that energizes all Bruins.

Campus Life

It's not just the atmosphere on campus and the location that you'll love. Our eclectic student body creates a lively mini-metropolis brimming with possibilities. With more than 1,000 unique student clubs and organizations, it's easy to meet people with common interests and take part in a number of student activities.

Life on "The Hill"

Discover UCLA's thriving residential communities. "The Hill" overlooks many of the nearby classrooms, libraries and labs. Tour a variety of housing options — from the close-knit community of residential halls to the independence of university apartments — and find out what it's like to live like a Bruin. You'll see why 94% of freshmen choose to live on campus!

Meet the Faculty

When the world has problems, it comes to us. Our faculty members are the foremost experts in their fields, performing life-changing research and producing technology that creates jobs throughout the state. We are determined to make a difference in the health and welfare of the world.

Living Green

From solar water-heating panels and community-supported agriculture to a student-run organic garden, Bruins enjoy a healthy and sustainable lifestyle that's good for them and the planet. Visit the Student Community Garden to learn how Bruins grow organic produce on campus or tour the university's seven-acre botanical garden. We're committed to keeping our campus and students healthy!

You'll Fit Right In

One of the greatest aspects of our campus is the student diversity. Meeting people from across the globe allows our students to become worldly individuals open to different cultures and experiences. No matter what your background or personal passions are, you can find a place in the Bruin community.

Schedule a Tour

Visit our website for the many ways you can see UCLA, including: Campus Tours, Housing, Arts and Architecture, Engineering and Applied Sciences, Theater, Film and Television. admission.ucla.edu/tours
