YOUR GUIDE through the transfer admission process
This guide serves as a primary resource in determining which courses to complete for major preparation.

Applicants from California community colleges should use this guide in conjunction with www.assist.org and www.admission.ucla.edu/transfer to determine which specific courses you should be taking at your institution. This guide is not a substitute or replacement for your college counselor, who can advise you about requirements for multiple universities.

UCLA is committed to being a transfer-friendly institution. Strong academic preparation and performance make you a more competitive candidate during the admission review process. The average GPA of admitted transfer students is above 3.5, and admitted students have completed most or all major preparatory courses. We give highest priority to applicants from California community colleges and other UC campuses. UCLA admits students for fall quarter only.

WE UTILIZE A COMPREHENSIVE REVIEW PROCESS THAT INCLUDES ACADEMIC & PERSONAL CRITERIA

ACADEMIC CRITERIA
- Junior-level standing (60 semester/90 quarter UC transferable units completed) by the end of the spring term before you transfer.
- GPA of 3.2 or higher earned in all transferable courses.
- Progress towards completion of major preparation requirements by the end of spring prior to transfer. For more information regarding major preparation requirements, utilize www.accredit.org and www.admission.ucla.edu/transfer for the most current updates.
- Completion of the following by the end of spring prior to transfer:
  - Two (2) transferable courses in English composition/critical thinking and writing
  - One (1) transferable math course with a prerequisite of intermediate algebra or higher
  - Four (4) transferable college courses in at least two of the following subject areas: arts and humanities, social and behavioral sciences, physical and biological sciences.

PERSONAL CRITERIA
- Employment while attending school
- Involvement in campus organizations and community service
- Family responsibilities
- A return to school where early grades are not indicative of strong academic performance
- Military service
- Other opportunities or challenges that may have shaped your educational experiences

APPLICATION CRITERIA

APPLICATION TIPS
Report courses exactly as they appear on your transcript, including nontransferable courses and withdrawals. You must report all courses completed at any post-secondary institution. You may not omit any courses or previous institutions from your UC application.

Provide an accurate email address on your UC application and check that account regularly. You may receive important information via email throughout the admission review process.

List the language of instruction at your high school.

Provide your fall grades and planned spring coursework in January through the Transfer Academic Update (TAU) by January 31st. We cannot review your application if you have not submitted your TAU.

Explain any gaps in education.

Withdrawals, incomplete grades, and academic renewals are not necessarily viewed negatively. Take time to address these in your application so that we have a clear understanding of your academic progress.

You can import information directly into the UC Application from the UC Transfer Admission Planner (UC TAP).

PERSONAL INSIGHT QUESTIONS

The UC Application asks all transfer applicants to answer one required question, and three out of seven additional questions. The Personal Insight Questions offer us an opportunity to learn more about you and to understand the experiences, accomplishments, and points of view you would bring to UCLA’s undergraduate student community.

- Each response is limited to a maximum of 350 words.
- Choose to respond to the three questions that are most relevant to your experience and that best reflect your individual circumstance.
- All questions are given equal consideration in the application review process. There is no advantage or disadvantage to choosing certain questions over others.

REQUIRED TRANSFER APPLICANT QUESTION
Please describe how you have prepared for your intended major, including your readiness to succeed in your upper-division courses once you enroll at the university.

ADDITIONAL QUESTIONS
1. Describe an example of your leadership experience in which you have positively influenced others, helped resolve disputes, or contributed to group efforts over time.
2. Every person has a creative side, and it can be expressed in many ways: problem solving, original and innovative thinking, and artistically, to name a few. Describe how you express your creative side.
3. What would you say is your greatest talent or skill? How have you developed and demonstrated that talent over time?
4. Describe how you have taken advantage of a significant educational opportunity or worked to overcome an educational barrier you have faced.
5. Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge. How has this challenge affected your academic achievement?
6. What have you done to make your school or your community a better place?
7. Beyond what has already been shared in your application, what do you believe makes you stand out as a strong candidate for admissions to the University of California?

Special Instructions for Veterans
UCLA is interested in learning about your military service and how it may have shaped your educational path. You may choose to discuss your military experience in your personal insight question responses or any other relevant section.

UC Math and English Requirements
A common misstep students make is postponing these required courses until the spring term. Doing so leaves students with no options should they drop or fail one of these courses.

Tip: Students are encouraged to take their required English and math courses as early as possible with at least one English course completed by the end of fall.

IGETC Certification vs. Major Preparation Requirements
IGETC is NOT a requirement for admission to UCLA, though it is highly recommended for students applying to all schools, except the UCLA Henry Samueli School of Engineering and Applied Science. To be competitive for admission to UCLA, students should focus on completing general UC transfer requirements and major prep first.

Tip: Students are able to use the Summer prior to transfer to finish remaining courses for IGETC but these courses cannot be used to meet transfer admission requirements.

Transferrable Coursework
Students may be missing units because a course was not transferable, or did not receive credit due to limitations, duplication or other restrictions (outlined on www.assist.org).

California community college students should review their courses on www.assist.org and complete all courses by the end of spring prior to transfer. Courses completed in the summer immediately prior to transfer cannot be used to fulfill the minimum unit requirement.

Students who have completed courses outside the California Community College system should compare those course descriptions with courses in the UCLA General Catalog (http://catalog.registrar.ucla.edu). UCLA does not pre-evaluate course transferability prior to submission of an application.

ASSIST (www.assist.org) provides detailed information on transferable courses, major prep requirements, and course articulation.

UCLA Admission Representatives visit many California community colleges throughout the year. Visit your college transfer center to schedule an appointment. You can also view our Meet Your Counselor page to find the contact information for your school’s assigned representative: http://www.admission.ucla.edu/meet-your-counselor.htm

UC Transfer Admission Planner (UC TAP) is an online tool designed to help prospective UC students track and plan their course work with counselors and UC representatives. Visit uctap.universityofcalifornia.edu to learn more.

Intersegmental General Education Transfer Curriculum (IGETC) enables California community college students to complete UC general education requirements before they transfer.

- PA 60: The equivalent of UCLA’s STATS 10 - Intro to Statistical Reasoning

Highly recommended: if your school offers the equivalent to SOCIOL 20 (Intro to Sociological Research Methods), it is recommended that this be taken in addition to STATS 10.

Please note: If the statistics course you complete does not use R for data management and analysis, you will be required to take a data management & analysis course involving the use of R software in your first quarter at UCLA.
- PA 80: A course focused on lifespan human development (preferred) or child and adolescent development
MINORS

UCLA offers a wide variety of minors, to which interested students may apply after entrance to the University. For more information on our minors, please consult the UCLA General Catalog. Note: all transfer applicants are reviewed and selected on the basis of their declared UCLA major. Interest/preparation towards a minor is not a criterion for admission selection.
