CREATIVE COLLECTIVE
We put the social in social studies.

Learning happens everywhere at UCLA, and our capacity for learning improves when we discover our passions and explore new ideas.

Our eleven Living Learning Communities—or LLCs for short—gather residents from diverse backgrounds to promote their common interests in a collection of inclusive and supportive spaces within our on-campus housing community.

When we discover the things we have in common, we open ourselves up to the rarest and most transformative kind of higher education. Enrich your UCLA experience by joining a Living Learning Community.

Visit reslife.ucla.edu/livinglearning for more information on our Living Learning Communities.

Every aspect and intersection of your identity is welcome here. We affirm you and we validate you.

This LLC reveals the overlooked history of Pilipinx culture to its residents and highlights the nuances of the modern Pilipinx and Pilipinx-American experience for everyone on The Hill.

I knew I was Pilipino my entire life, but I didn’t know what it really meant until I was at UCLA.
