

UCLA

SPRING 2018
**LECTURE
EXPERIENCE**

get a first-hand
class experience

UCLA's Lecture Experience gives you the opportunity to sit-in and experience an actual class lecture here on campus!

To give you a glimpse into the academic world at UCLA, many professors have generously agreed to allow prospective students and guests to visit their lectures. If you are interested in this opportunity, please observe the following:

1. Please be on time. If you think you will leave before the class ends, please try to sit toward the back of the room and leave quietly.
2. Please only sit in extra seats; make sure that you are not taking the seats of any students enrolled in the lecture.
3. Please understand that professors are not department counselors. If you have any questions concerning a particular field of study, contact that specific department or visit Undergraduate Admission at 1147 Murphy Hall.
4. Lectures represent only one type of course format at UCLA. Smaller seminars are not included in the Lecture Experience, but there are hundreds of seminars to choose from as a UCLA student. In fact, two out of every three classes have 30 or fewer students.
5. Please observe any special instructions from the professor included in the course list.
6. Please note that courses may have exams or special programs throughout the quarter, so some classes may not be available during your visit.

We hope you enjoy your visit and UCLA Lecture Experience!
